Independent Auditor's Report

Chair and Members of the Board Village of Green Island Industrial Development Agency Green Island, New York

Report on the Financial Statements

Opinion

We have audited the financial statements of the Village of Green Island Industrial Development Agency (Agency), as of and for the years ended December 31, 2021, and 2020, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the financial position of the Agency as of December 31, 2021 and 2020, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* (*Government Auditing Standards*), issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Agency and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures in
 the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Agency's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Agency's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of American require to be presented to supplement the basic financial statements. Such missing information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statement in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements it not affected by this missing information.

Chair and Members of the Board Village of Green Island Industrial Development Agency Page 3

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Agency's basic financial statements. The accompanying schedule of indebtedness is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of indebtedness is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 16, 2022, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Organization And Summary Of Significant Accounting Policies

a. Organization and Purpose

The Village of Green Island Industrial Development Agency (Agency) was created during 1979 by the Board of Trustees of the Village of Green Island (Village) under the provisions of Article 18-A of the General Municipal Law of the State of New York and Chapter 63 of the Laws of 1979 of the State of New York for the purpose of encouraging economic growth in the Village. The Agency, although established by the Board of Trustees of the Village, is a separate entity and operates independently of the Village.

The Agency's function is to authorize the issuance of industrial revenue bonds for industrial development projects and to assist businesses in acquiring or constructing various facilities in order to provide job opportunities and increase economic welfare. In return for its efforts, the Agency receives application and closing fees related to this business financing.

b. Basis of Accounting and Financial Statement Presentation

The Agency's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The accounting and financial reporting treatment applied to the Agency is determined by its measurement focus. The transactions of the Agency are accounted for on a flow of economic resources measurement focus and the accrual basis of accounting. With this measurement focus, all assets and liabilities associated with the operations are included on the statements of net position. Net position consists of unrestricted assets and liabilities.

Revenues are recognized when earned, and expenses are recognized when incurred. The Agency distinguishes operating revenues and expenses from nonoperating items. Operating revenues are determined based on the services provided by the Agency. Operating expenses include the costs associated with providing those services. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

c. Estimates

In preparing financial statements in conformity with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

d. Tax Status

The Agency is exempt from federal, state, and local income taxes.

Notes to Financial Statements December 31, 2021 and 2020

Note 1 - Organization And Summary Of Significant Accounting Policies - Continued

e. Cash Deposits and Investments

The Agency's investment policies are governed by New York State statutes. In addition, the Agency has its own written investment policy. Agency monies must be deposited at Federal Deposit Insurance Corporation insured commercial banks or trust companies located within the State. The Agency is authorized to use demand accounts, money market accounts, and certificates of deposit. Permissible investments include obligations of the U.S. Treasury and obligations of New York State or its localities.

Collateral is required for demand deposits and certificates of deposit not covered by federal deposit insurance. Obligations that may be pledged as collateral are obligations of the United States and its agencies and obligations of the State, its municipalities, and school districts. The Agency's deposits were fully insured or collateralized at December 31, 2021 and 2020.

f. Property Held for Redevelopment

At December 31, 2021 and 2020, the Agency's property held for redevelopment consists of approximately 55 acres of land, which are available for sale and development. The Agency is actively seeking buyers for the land consistent with the Agency's purpose of encouraging economic growth in the Village. Property held for redevelopment is valued at the lower of cost or net realizable value.

g. Subsequent Events

The Agency has evaluated subsequent events for potential recognition or disclosure through February 16, 2022, the date the financial statements were available to be issued.

Note 2 - Transactions with the Village

In accordance with an informal agreement between the Agency and the Village, the Agency reimburses the Village for employee salaries, benefits, sick and vacation time, and grant writing services. During the years ended December 31, 2021 and 2020, the Agency was billed \$70,240 and \$63,191, respectively, for these employee related costs and services. As of December 31, 2021, and 2020, the Agency was indebted to the Village for \$7,019, for these costs and services.

Note 3 - Contingencies

Certain facilities are subject to federal, state, and local regulations relating to the discharge of materials into the environment. Compliance with these provisions has not had, nor does the Agency expect such compliance to have, any material effect upon the capital expenditures or financial condition of the Agency. Management believes that its current practices and procedures for control and disposition of regulated wastes comply with applicable federal, state, and local requirements.

Notes to Financial Statements December 31, 2021 and 2020

Note 4 - Revenue Bond Transactions

Revenue bonds issued by the Agency are secured by loan agreements from organizations that utilized the proceeds for various projects and the buildings which were built with those proceeds. The repayment terms of the loan agreements match the repayment terms of the bonds issued by the Agency. The bonds are considered conduit debt and therefore are not obligations of the Agency or the Village. As such, the Agency does not record the assets resulting from completed loan agreements or liabilities resulting from completed bonds issued in its accounts. The Agency's primary function is to arrange the financing between the borrowing companies and the bond holders, and funds arising therefrom are controlled by trustees or banks acting as fiscal agents. For providing this service, the Agency receives administrative fees from the borrowing organizations. Such administrative fee income is recognized upon authorization and closing of bonds. During December 2017, the Agency completed a bond refinancing transaction. These revenue bonds outstanding at December 31, 2021 and 2020 were \$14,851,907 and \$15,162,805, respectively.

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

Chair and Members
Village of Green Island Industrial Development Agency
Green Island. New York

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Village of Green Island Industrial Development Agency (Agency), as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated February 16, 2022.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Chair and Members Village of Green Island Industrial Development Agency Page 12

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
